SPECIAL TRAIN CARRIES I. W. W. LEADERS TO EASTERN PORT UNDER HEAVY GUARD TO BE DEPORTED AT ONCE

Train Passes Through Chicago Last Night Under Heavy Guard on Way to Atlantic Coast Port.

FOURTY PRISONERS FROM SEATTLE CHARGED WITH CAUSING STRIKE

Seattle Agitators "Gathered In" Two Hours Before Strike Was Called.

Government's Proceeding "Is Simple" and Effective Says Train Official.

CHICAGO, FEBRUARY 10.—(Associated Press)—Fifty-four members of the I. W. W. passed through Chicago last night in a special train under heavy guard, on the way to an eastern Atlantic port where, it is said, they will be deported at once.

Forty of the prisoners are from Seattle where it is alleged they took part in fomenting the general strike which has paralyzed the industries of that city. Three leaders of the Seattle strike, one Spokane agitator and I. W. W. leaders from Denver and five alien convicts arrested in Chicago, were among the prisoners gathered into the federal net.

The majority of the men were alien agitators picked up by officers of the United States Immigration Service during the year of secret campaigning in industrial centers of the Pacific coast.

"The proceeding against United States enemies of this type is simple," an official of the train said. "Just two hours before the Seattle strike was called, we gathered 40 agitators into cars. For more than a year the immigration service has been working quietly in all industrial centers checking up on the strange aliens who have appeared and gathered evidence against I. W. W. leaders and trouble makers who call themselves Bolsheviks."

THE MATTER OF CREDENTIALS MAY START IT

Commission on Credentials At Peace Conference Hasn't Begun to Function

(By Associated Press)

Paris, February 10.—If the peace conference commission on credentials ever begins to function some stirring developments are expected to follow.

The commission has not met thus far even to organize, the conference having gotten along entirely without the right of any of the delegates to their seats being challenged, which probably is without precedent in the history of such international gatherings, it being recalled that the famous Westphalian congress of 1648 spent the better portion of a year in verifying the credentials of its members.

LABOR CONGRESS FRAMES DEMAND FOR CONFERENCE

(By Associated Press)

Berne, February 10.—Demands for presentation to the Paris peace conference were agreed upon by the International Labor conference today. The demands include the establish-

ment of an eight hour day with an uninterrupted period of 36 hours weekly; insurance against accident in employment; the forbidding of night work in all countries for all women workers and employment of all children under 15 years of age.

THE SOCIALISTS IN BERNE TALK BIG PROBLEMS

Disposition of Alsace-Lorraine and Release of German Prisoners Taken Up

(By Associated Press)

Berne, February 9.—Territorial questions were to the fore at both sessions of the international socialists conference today, the subject of Alsace-Lorraine being the chief one considered.

Some time also was spent debating a resolution favoring release by the allies of German prisoners of war.

During the latter discussion there was sharp exchanges between majority socialists of Germany and Kurt Eisner, the Bavarian premier, the latter accusing German authorities of ill-treating French prisoners.

Vladivostok, February 8.—Reports from Omsk state that the Russian government there has accepted an offer from Japan of men, money and arms to settle the Bolshevik difficulty.

This step, it is stated, is due to reports that the allies are to withdraw their forces from Siberia and also a fear that the conference at Princess Islands will result in recognition of the Bolsheviks.

In return for the aid she is to give, the reports state, Japan will secure iron and coal concessions.

SEATTLE STRIKE NOW RARIDLY FALLING APART

Union Leaders Admit Case is Hopeless

Many Deserting Ranks of The Strikers

(By Associated Press)

Seattle, Wash., February 10.—Conservative leaders of union labor met today with the general strike conference committee in an effort to induce the committee to recommend that the general sympathetic strike be called off.

Little hope was entertained by many of the union delegates that the general strike could be prolonged.

Desertions in the striking ranks came fast yesterday despite the committee's decision to continue the walkout.

All except about 400 street car men returned to work and several other labor organizations voted to resume work this morning.

Schools were reopened and other places prepared to resume activities.

Tacoma, Wash., February 10.—Following the decision of the central labor council last evening, the general strike is off in Tacoma today and members of the union who went out in sympathetic strike went back to work.

U. S. SOLDIERS TAKE CHARGE RESTORE ORDER ABOUT BUTTE

Miners Who Desire to Return to Work Are Permitted to Pass

PICKETING BROKEN UP

Strikers Who Are Slow in Moving When Ordered Feel "Sting" of Bayonet

(By Associated Press)

Butte, Montana, February 10.—Strikers in the mines of Butte who object to their recent reduction of one dollar a day wages and who are insisting on the abolition of the "rustling" card system, were halted on their way to picket the mines today by guards of the United States soldiers.

Those men who decided to go to work were permitted to pass.

Miners who used the street cars to get to work were prevented from doing so when strikers stopped the cars at the barns. Soldiers cleared the crowd but later a committee of union men is understood to have called out the union car men.

Streets leading to the mines were patrolled by soldiers long before time for the early shifts to go to work. Congregating is forbidden by the military and those slow in moving at the command of the soldiers have felt the sting of the bayonet point.

Before Crowded Galleries Resolution Proposing Equal Suffrage is Defeated

Eleventh Hour Efforts of Both Sides Were Spirited and Tireless

(By Associated Press)

WASHINGTON, February 10.—The federal constitutional suffrage amendment was beaten again today in the Senate.

LACKED ONE

(By Associated Press)

Washington, February 10.—The House resolution for submission of the suffrage amendment failed of adoption with 55 in favor and 20 against, one less than the necessary two-thirds.

Thus ended what leading suffrage champions had said in advance would be the final test of this session of Congress. The suffrage advocates went into the test knowing they lacked one vote, but hoping to the last that it would be won over.

Senator Harding of Ohio voted for the amendment and Senator Pomerene voted against it.

Washington, February 10.—Before crowded galleries and with most of the Senators present the House resolution proposing submission of an equal suffrage amendment to the federal constitution was called in the Senate today at 12:40 o'clock. Both sides were prepared for a final test and confident of a decision before adjournment.

Unanimous consent was given for consideration of the resolution. Before the debate began petitions from a number of state legislatures in behalf of the resolution were presented by senators from those states.

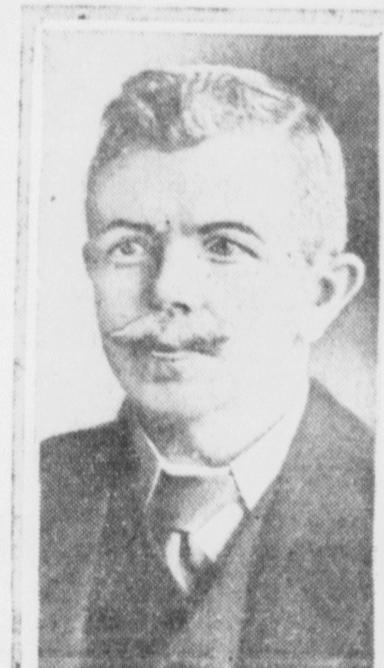

Advocates of the measure were hopeful of winning over the one additional vote which would give the required two-thirds majority while opponents were confident of success.

Little debate on the resolution was expected and after the vote it was planned to call up the conference report on the war revenue bill.

Suffrage workers before the Senate convened made a final and vigorous appeal for their cause, state delegations visiting many senators in an eleventh hour effort to muster the one vote believed to be needed.

Chairman Jones of the Suffrage committee announced before the Senate convened no further attempt would be made to get a vote on the measure at this session.

COMMITTEE ON LEAGUE WORKS UNCEASINGLY

Only Two Sections Remain to be Cleared Up Today

Paris, February 10.—(By Associated Press)—The week begins with the business of peace conference well advanced. Dozens of commissions are at work with an energy never seen in former international conferences.

First in interest and importance, because of the fundamental nature of the task, the commission on the society of nations, is now awaiting what is termed clarification of two sections of the great project which appears to have been adopted without a really clear and unanimous understanding of their scope. While this statement is regarded in some quarters as a rather peculiar confession on the part of trained diplomats, it is cited as justification for the declination by the commission to make public the text of any of the articles it has approved until all the work is completed and beyond the necessity of revision in the light of subsequent action of the other section.

The subcommittee is unravelling the tangled skein of diplomatic verbiage and, it is hoped, will clear it up at a meeting Monday by the substitution of phraseology that will enable the commission to resume its work very soon.

In view of frequent official assurances that the work was being done with complete unanimity, no doubt can be entertained that the plan will be ready for action by a plenary meeting of the conference before the end of the week. Nearly all the nations are now being represented on the special commission framing it, and from this is assumed that they have already practically committed their governments to support of the measure when it comes up for final approval by the conference.

DISTRICT MEETING NEW ERA MOVEMENT

A district meeting in the interest of the New Era Movement will be held Thursday evening at half past seven o'clock in the First Presbyterian church of this city. Rev. Herbert Ure of Columbus will be present and make the principal address. Rev. Roland E. Crist of Wilmington, chairman of the district, will also speak. THE MEMORIAL SERVICE SUNDAY RICH IN TRIBUTE

In accordance with the Governor's proclamation calling for the Roosevelt Memorial Service on Sunday, the First Presbyterian church was thrown open for such a service Sunday night Rev. McWilliams in charge and the choir furnishing excellent music.

Following the opening services, Rev. McWilliams read a special tribute to Roosevelt written for the occasion by Miss May M. Duffee.

Mr. Henry Brownell made a highly appreciative and interesting address on Roosevelt as a citizen. He spoke of the ex-President as man by birth exceptionally American, his ancestors

on his father's side having been in this country for 200 years and before

he was born and including a long

list of honored and able men, and on his

mother's side taking up residence in

Georgia more than a century before.

He was a thorough American, a product

of the American community, of

the American school and of the

American church.

Col. Roosevelt deliberately chose politics as his life work and entered upon his career as a member of the Republic Club of his ward in New York. His standard, as carried out

through his entire career, was aggres-

sively to be a good man and a good

citizen, not merely to avoid being

a bad man. He made mistakes,

but there is no instance where he

intentionally compromised right and

wrong and it was upon his desire to

be a good citizen "on the level," that

there was built his reputation of

a citizen of the world and a great national character.

Mr. Brownell held up strongly the

lesson of this example and appealed

to every man in the audience to ac-

tively participate in those things for

the good of their town, not to waste

time in fault finding—anybody can do

that—but to take hold and help cor-

rect those things which they deem

wrong.

Hon. C. A. Reid made a splendid ad-

dress on "Roosevelt as a Statesman"

paying fervent tribute to him in this

capacity.

The speaker said that while he had not always been in sympathy with his views or an active follower, yet he had no doubt that Col. Roosevelt was imbued with the highest ideals and he achievements he sought for the American people the best in his vision. He seemed to be a "man of destiny" and his greatness as a statesman is unquestioned.

Mr. Reid cited the great changes in the Civil Service department and he new chapter in its reform largely brought about while he was at the head of the Bureau—the crusade waged against crime and corruption in New York, marking him as one of the great reformers; of his brilliant entrance, with his Rough Riders into the military conduct of the Spanish American war. He was not a favorite with politicians in those early days, he was the choice of the common people and when, against his protest, politicians tried to shelve him by electing him to the Vice-Presidency, their aim was foiled by the assassin's bullet. It was as he was the nation's president that the man's genius showed best and it was his brilliant accomplishments in home and foreign realms which evoked a loyalty and allegiance which followed him to his grave.

The Up Town Streets

Since the war has been brought to a successful close, since we can see the end of the tremendous debt incurring which was necessary during war time and since we can begin to comprehend now the total war debt and already are on our way to wipe out the balance due by a system of taxation and bond sales, the communities of the land are free to look about their premises and see what is necessary to be done in the way of public improvements.

These improvements, even the necessary ones were, very properly, halted during war time and even now the heavy war debt which must be paid and the deplorable financial condition in Ohio municipalities makes it wise that public improvements be held to the necessary ones.

All of which preliminary brings us to the point. There is no longer any need or excuse for holding up the improvement of our streets in the business districts. The condition of our up town streets is a disgrace. They are in a condition where they are a positive detriment to business. Merchants are feeling the lack of passable streets. Strangers passing through are avoiding them and local people are ashamed and annoyed at their condition.

Fortunately we can lay asphalt streets at little cost, comparatively. The foundation is already in with the old brick streets.

If council will take the matter in hand and push it through it will have the back of a grateful citizenship.

Crossing The Ocean by Airplane

Crossing the Atlantic Ocean by airplane seems to be now a certainty of the very near future. British and American expert flyers, builders and government commissioners have begun the development of the plans for accomplishing that task in real earnest.

It is not so very long ago measured by the years that a trip across the English Channel was the one great ambition of the flyers of that day.

We all remember distinctly the months of preparing for the "daring" experiment, the days of anxious waiting for perfect weather conditions and the final dash and the success.

That, at that time, was regarded as an achievement extraordinary, yet one which would scarcely result in much practical benefit. The world looked upon it as a feat akin to going over Niagara Falls and through the Whirlpool Rapids in a barrel or the like.

Four years of war have demonstrated the great practical worth of those early experiments. Crossing the channel in an airplane now days is a common place task no more worthy of comment than crossing in one of the scores of ships that ply between Dover and Calais.

The war's necessities have brought airplane construction to much higher perfection than ever before. The "ships" are larger, stronger and faster. The engine strength, compared with the days of the cross-channel flight, has been multiplied many times. There are thousands of ambitious flyers here and in England who are anxious to make the first trip and there are thousands of big ships ready for use.

The governments are interested and there is no end of financial backing. Every indication is now that it will not be long until from New York to London or Paris, above the clouds, will be a matter of hours only and a trip of ease and safety.

Preparing For Peace

By an overwhelming vote of 350 for to only 11 opposed the nation's huge revenue bill providing for the raising of more than half a score of billions of dollars by taxation was passed by Congress on Saturday and at the same time by a vote almost as decisive the legislative body provided for spending two hundred million dollars for good roads in connection with the development and extension of the postal service as recommended by the post office department. At the same session the proposal to extend the establishment of aerial mail service was approved by Congress.

Thus we provide for making progress at the beginning of this wonderful era of peace.

Millions and billions of dollars are expressed in connection with national activity with a familiarity that only a few years ago would have been considered wildest fancy.

We have passed through a wonderful era and we are entering upon another just as wonderful, but without the horrors of that other time.

These are great days and this is a great country in which we live.

POEM FOR TODAY

THE RETURN.

Sorry and sad of heart
I sent my boy away;
Frightful to be his part,
Mine to stay home and pray.

After long weary time,
Lonely as time might be,
Back from that foreign clime,
Back came my boy to me.

Maimed? Crippled? No, not he;
Yet could I note a lack.
One glance, and I could see
Not all my boy came back.

Gone was his vain conceit,
Missing, his idle ways;
Missing, that air effete,
Missing, his love of praise.

Gone was his pert address;
Gone his impetuous haste;
Gone was his selfishness;
Gone his impulse to waste.

Wise from the lessons learned,
Aged by the risks he ran;
Rich from experience earned,
My boy came back—a Man.

"END" OF WAR IS
ULL IN STORM
SAYS PREMIER

Chaotic and Fruitful Russia Remains to Huns, Says Clemenceau

Praises Dauntless Spirit of the American Soldiers

(By Associated Press)

Paris, February 10.—"While I have said that the war has been won, it would perhaps, be more accurate to say that there is a lull in the storm," said Georges Clemenceau the French premier in the course of an interview with the Associated Press. "At least," he added, "it is well to face squarely all the possibilities."

Although Germany had been beaten militarily and had been largely disarmed, there still remained, the premier pointed out, "chaotic but fruitful Russia, from which great help may be drawn by the Teutons. There would be danger, he thought of a reopening the military debate if it were not for the assurance President Wilson had voiced recently that whenever France or any other free people was menaced the whole world would be ready to vindicate its liberty.

In the society of nations, said the premier, each nation must be willing to renounce its traditional aloofness and be willing to employ the national strength outside its own country, both in war and in peace.

Premier Clemenceau warmly praised the help the American troops had given in winning the war for democracy and expressed the belief that there was not a man in the American army of occupation who regretted that he had "fought on the side of freedom," because he had found more comforts in Germany than in France.

"I lived in the United States in my young and formative days," said Premier Clemenceau, in beginning. "Perhaps, therefore I may be indulged to say a few words to our allies on the other side of the Atlantic. Not by way of advice or propaganda, but frankly, as friend to friend.

The entrance of America in to the great war was full of dramatic interest. The application of nationwide conscription with our slightest disturbance, the universal self-denial to supply us with food and all our requirements, the unity of purpose and the amazing energy of 110,000,000 of people of so varying and complex a character challenged our admiration and gratitude in such fashion as no one but ourselves can know.

"And the way the American soldiers fought! Nothing could have been finer. Inspired by the holiest

HONOR ROOSEVELT
IN WASHINGTON

Washington, February 9.—(By Associated Press)

In solemn services within the house chamber today the nation's leaders and representatives of foreign governments paid tribute to the memory of Theodore Roosevelt. Members of Congress, supreme court justices, members of the cabinet, army and navy officers, and diplomats of many nations heard Senator Lodge of Massachusetts praise Roosevelt as a statesman and a man. Crowded galleries and throngs of men and women who could not gain admission testified to the personal feeling for the man whose death shocked the world. It was this to which Senator Lodge, a close friend of the man he eulogized, referred when he spoke these words in the stillness of the house chamber.

"A tower is fallen, a star is set! Alas! Alas! for Celin."

"The words of lamentation from the old Moorish ballad, which in boyhood we used to recite, must, I think, have risen to many lips when the world was told that Theodore Roosevelt was dead. But whatever the phrase the thought was instant and everywhere."

NOTABLE HEADS
LEAVING ARMY

Munich, January 20.—(By Correspondent of the Associated Press)—

Notable figures have been leaving the Bavarian army lately. The famous General Konrad Kraft von Dellmensingen, commander of the Alpine Corps, later Chief General of the Bavarian general staff, has retired. Prince Ferdinand of Bourbon, Duke of Calabria, has given up his complimentary rank as chief of the Sixth Field Artillery Regiment, and has retired from the Bavarian army. The well known Infantry General, the Count von Bothmer, has given up his liaison connection with Infantry Body Guard Regiment.

Ohio State Telephone Stock

Opportunity For Profitable Investment

The Ohio State Telephone Company has sold an issue of 4 year 7 percent notes, convertible at the option of the owner, into Preferred Stock, or Bonds of the Company.

This financing paid off the company's floating debt, in addition to providing funds for other corporate purposes.

The financial condition of the Company is excellent and the former necessity for applying all of the net surplus earnings to capital account no longer exists.

The net earnings, after all deductions for fixed charges, and an ample depreciation fund, cover the 7 percent Dividends on the Preferred Stock, and a substantial surplus which warrants the payment of dividends on the Common Stock.

The Government Lease

The Ohio State Telephone Company is under Government Control, terms of the lease guaranteeing to the Company fixed charges of every description, including annual interest on the issue of 4 year notes; an annual fund of \$500,000 for depreciation and maintenance of the properties; and in addition thereto compensation of \$800,000 per year for corporate purposes.

Out of this fund the Company pays dividends on the Preferred

News of Interest to Women

DR. BARBARA HUNT
Who Speaks Tonight at the High School Auditorium

From Asheville, N. C., comes a wedding announcement of marked interest in both this community and that of the bride-groom's home town, Bloomingburg, the marriage of Mr. Thomas Parrett, son of Mr. and Mrs. C. G. Parrett to an attractive Southern girl, Miss Esca Meade Monroe, of Walwick, Ga., which took place at eleven o'clock on the morning of Thursday, February the sixth.

Rev. Gryce performed the ceremony in the Asheville Baptist church with only the immediate families in attendance.

The bride-groom, a fine young fellow with a host of friends in town and county, has been in Asheville for the benefit of his health the past year, his parents joining him for the winter. His bride is quite talented in music as well as a bright, interesting girl, having completed her education at the School for Girls, Albany, Ga., but a short time ago.

Good wishes galore are speeding southward from Fayette County friends as the wedding is becoming known.

Mr. C. G. Parrett's wedding gift to his son was a home and adjoining farm, delightfully located near Asheville, where the young couple will make their home for the present.

Mr. and Mrs. C. G. Parrett returned to their Bloomingburg home the last of the week.

Mrs. W. W. Barnes extended the hospitality of her home to the Mission Study Class of the Presbyterian church Monday.

Mr. and Mrs. Bennett E. Kelley, of this city, Mr. and Mrs. C. A. Kelley and family, Mr. and Mrs. E. C. Kelley and family, East of town, attended a most enjoyable family dinner at the home of Mr. and Mrs. N. T. Kelley, near Danville, Sunday, in honor of the 59th birthday of the mother.

Mr. and Mrs. Mark M. Girton had as their guests for the dance at New Holland, Mr. and Mrs. Wallace Goldsback and Lt. M. G. Ritemour, Mr. Charles Gehring, and Mr. Harold Perry, of Chillicothe, and with their guests were entertained at a dinner given by Mrs. Girton's mother, Mrs. A. J. Bryant, at her handsome country home near New Holland.

Mr. and Mrs. Martin Knecht and family, of Briar Avenue, pleasantly entertained Sunday, Mr. and Mrs. Martin Knecht, Jr., daughter Irene and son George, Mr. and Mrs. Clarence Knecht and little son Andrew, of Jeffersonville.

In the recent days when eggs soared to the dollar a dozen mark in New York the Sun records the following incident:

The Woman Who Saw thought she had scaled the dizzy heights of the cost of lunching and dining in a great city until a day when she joined a friend at a popular tea room. Small "Sonny" aged five, was with his mother, and the bill of fare was not made for small fry. At last Mother ordered an egg, to be brought raw, which she then proceeded to coddle in the hot water purveyed for her own tea. That one egg, cooked by Sonny's Ma, appeared on the bill as worth twenty-five cents. Polite protest brought no relief. Anything out of the ordinary, said the waitress, was more expensive than regular food. The egg was paid for. But neither the Woman Who Saw nor Sonny's Ma is recommending that tea room to her friends.

That is a wise decision of the Belgian Government, to leave the ruins of Ypres as they are, as a symbol and memorial of the horrors with which the country has been visited. Ypres will be rebuilt, but on a new site which has not yet been chosen.

To many minds nothing but concrete presentation of facts is convincing. It will be well for future generations of travellers to view these ghastly ruins; an object lesson to the fat and prosperously unharmed visitor.

SPECIAL SERVICES AT GRACE CHURCH MAKING PROGRESS

Tonight at 7:30 Dr. Mahood's sermon theme will be "Almost a Christian." This will be preceded by Miss Mahood's Young Woman's Bible Study class. At the 7:30 service the "The Sunshine Chorus" consisting of the boys and girls, will lead the singing under the direction of Mr. J. H. Bray.

Tomorrow's cottage prayer meetings will be held at 10 a.m. At 3:00 p.m. Dr. Mahood will preach on "The Practical Significance of the Second Coming of Christ." At 4:00 p.m. Miss Mahood will give her health culture lecture and exercises open to all women and girls.

Dr. Mahood's sermon Saturday evening on "The Second Coming of Christ" made a profound impression upon the large audience.

Dr. Mahood spoke in part as follows:

"The second coming of Christ is mentioned nearly 300 times. Christ will come again literally and personally. No one knows when this will be, although it may take place at any moment.

"It is not long since Christ was on earth. Here is a coin in my hand that was minted presumably during the time of Christ. The Master himself might have handled this very coin. And in this hand is a letter 2500 years old, written on a tablet of clay.

"When He comes again he will come to receive his own unto himself. God is making ready for the second coming of his Beloved Son. God's hand is in control and he works out a way to prevent wars. God's hand is seen in the wonderful changes in the nations of the world. The conditions described by Paul as existing prior to the second coming of Christ are manifest on all sides.

"There is an abundance of false prophets, and these are preying on the church members—not on the heathen. There is a tendency to drift away from the great fundamentals of the Bible.

"Once a man dropped a silver cup in a vat of acid. It disappeared as if by magic. The master chemist placed a solution in the vat and the silver reappeared, although it had not been visible to the eye. If man can do this, then what is there so wonderful about the resurrection of the dead?

"It may be easy for some of you to play the hypocrite now, but the time is coming when your life will all be laid bare."

BRITISH LOSSES ARE TREMENDOUS

LONDON, Feb. 1.—There were 20,000 British merchant vessels aggregating 21,000,000 tons, afloat when war began, according to the annual report of the Mercantile Marine Service Association.

Of these 9,000,000 tons have been sunk, and after allowing for replacements, there is a deficit of 3,500,000 tons.

In all 2475 merchant ships were sunk under their crews by enemy action, and an additional 570 fishing vessels, making a total of 3045 crews cast adrift.

Merchant seamen serving aboard British vessels, who have lost their lives in action with the enemy, total 14,700.

EXPECT GREAT SWARMS OF THE MYSTIC LOCUSTS

This is The Year When Ohio and Probably Fayette County Will Be Visited By Pest.

Letter "W" on Wings Meant War Last Time Sure Enough.

This year will probably witness a return of the cicada, or 17 year locusts, and Fayette county is said to be in the zone which will be affected by the pest. However, no serious damage is anticipated because of the return of this mysterious insect.

Not only will the 17 year locust come this year, but the 13 year species also is expected in many parts of the country, including Ohio.

The periodical cicada, the real name of the insect commonly called "locust" will appear this year in the following states: Alabama, District of Columbia, Delaware, Georgia, Illinois, Indiana, Iowa, Kentucky, Maryland, Massachusetts, Michigan, New Jersey, New York, North Carolina, Ohio, Pennsylvania, South Carolina, Tennessee, Vermont, Virginia, West Virginia and Wisconsin.

The injury done by the periodical cicada consists almost wholly in chiseling grooves in the branches of trees for depositing eggs. This in-

EFFICIENCY OF GAME WARDEN FORCE GROWING

Courage and Good Common Sense Necessary in Dealing With Violators

Special to Herald

Columbus, Ohio, February 8.—The increasing efficiency of the game warden force of the State of Ohio is shown by the fact that violations of the game laws are being reduced to a minimum in all parts of the state, according to information coming from the Bureau of Fish and Game. During the year from June 30th, 1917, to June 30th, 1918, 791 arrests were made by the wardens and \$16,185.25 turned into the state treasury in fines. The salaried warden force of Ohio is made up of men of the highest type obtainable, happy, intelligent, and courageous—gentlemen unafraid. They are carefully selected under rigid civil service examinations. The day of the "old Jimme game warden" is past. It is just as much the duty of the 50 men on the salaried warden force to interest and educate the public in the more sportmanlike methods of taking fish and game as it is to prosecute violators.

During the hunting season the wardens are dealing almost constantly with armed men, and men of every type and temperament. This requires courage and good common sense in their work. They are the friends of every true sportsman while at the same time they wage a campaign against the violators—the class of men who are interfering with, and attempting to tear down the constructive work the state is doing. The wardens work in all kinds of weather winter and summer, night or day, as occasions demand. The warden's work is educational and constructive and according to Chief Warden, M. S. Baxter, these men are making it possible to have "more game and better fishing" in Ohio by helping to put into force and effect the plans of the Fish and Game Bureau. The wardens are required to work with a keen sense of justice, and to co-operate with Fish and Game Protective Associations and Farmers' Societies, and to interest them in the necessity for conservation of the wild life of the state, as a valuable asset to all the people.

Young fruit trees are sometimes killed by the cicada. The precautionary measures are: Defer putting out young fruit trees till next year; postpone budding operations; do no pruning this winter or spring.

When the insects begin coming out, hand pick them from young fruit trees or spray them with pyrethrum powder, kerosene emulsions or a solution of carbolic acid or acetic acid.

Later, when the insects are ready to begin laying, spray fruit trees with whitewash.

When the cicada last visited Fayette county every one of the tens of millions of insects bore the letter "W" on each wing, and according to an old belief handed down from generation to generation, this meant war.

If the wings do not bear the letter "W," according to the superstitions, there will be no war. However, "W" also stands for "Wealth" and could be applied just as effectively to this word as to the word "war."

An average sum of \$150,000 is turned into the state by Ohio sportsmen in hunting license money each year, fifty per cent of which must be used for restocking with fish and game. From this sum the warden force is paid. The work of the Fish and Game Bureau therefore costs the taxpayers of Ohio—not a cent.

WILL E. PALMER
E. Court St. Citz. 22102**SUFFRAGISTS BURN EFFIGY OF PRESIDENT**

Sixty-five Radicals Are Arrested Following Unusual Demonstration Before White House

Washington, February 10.—(By Associated Press)—Sixty-five members

of the National Woman's party were arrested last night by civil and military police after they had burned President Wilson in effigy in front of the White House in protest against the threatened defeat of the equal suffrage resolution in the senate to-morrow. Several thousand persons watched the demonstration, but there was little disorder.

When taken to police stations the women, who represented 11 states refused to furnish bond for their release and were placed in the house of detention to await trial tomorrow.

The effigy of the president was about three feet in height and was made of paper. It was carried from the party headquarters to the place of burning by Misses Sue White of Nashville, Tenn., and Garriet Harris of Columbia, S. C., who marched in the procession of nearly 100 women most of whom carried suffraget banners.

A fire was lighted on a cauldron on the sidewalk and as the two women held the effigy over the blaze others made speeches to the crowd. The police then intervened and wholesale arrests followed. Most of the women protested and continued to harangue the spectators until they were forced into patrol wagons.

In the procession which left suffrage headquarters were only two state delegations. Mrs. H. O. Havemeyer of New York headed the New York delegation and Miss Elizabeth McShane of Uniontown, Pa., led the Pennsylvania representatives. Mrs. Havemeyer was among those arrested.

"KNOCK-KNEED KNOCK-ARMED SWAY-BACKED"

Improper Dressing Causes Many Afflictions Says Prominent Woman Who Addresses 20th Century Club

Philadelphia, February 10.—(By Associated Press)—Dresses which many of the women are wearing are causing them to become "knock-kneed, knock-armed and sway-backed," recently declared Mrs. J. Milton Menendick in an address before the Twentieth Century Club.
